NUMBER 30

Summer School Session Opens Tues., June 17

University Plans Advanced Courses in Field of Higher Education

Six Colleges To Offer Work; Coaching School Opens On June 3

Summer sessions of the University for 1929 will be ten weeks in length and will be divided into two terms, the first to begin June 17 and close July 20, and the second to begin July 22 and close August 24. It was learned from the office of Dean William S. Taylor, of the College of Education and director of the summer sessions of the University, yesterday.

The University has planned a series of courses for the session that will aid in throwing light on the more pressing problems in the field of higher education, in addition to the regular summer courses that are offered in practically every department of every college on the campus.

Courses will be offered for graduates and for undergraduates in the College of Agriculture, the College of Arts and Sciences, the College of Education, the College of Engineering and the College of Law.

In the summer session courses are planned for teachers who wish additional training so as to gain higher college degrees; city and county superintendents who desire to study the problems of education relating to the social life of the community; undergraduates in the various colleges, and persons desiring training for social welfare work, including playground instructors and directors.

There will be a number of summer courses for athletic coaches in football and basketball to begin on June 3 and close June 15. These courses will be under the personal supervision and instruction of Harry Gamage, head football coach of the University, and John Mauer, head basketball coach.

This year, for the first time, courses for registrars will be offered in the summer session. Prof. Ezra L. Gillis, who has been registrar at the University since 1910, will offer one course each term of the session in the technique of the registrar's office. The University has for several years conducted an institute for registrars. This institute has been attended by hundreds of registrars from all over the United States and Canada.

The Placement Service of the University of Kentucky, which is operated through the College of Education, will offer its services to anyone registered in the summer session. As there is a constantly growing demand for the services of graduates of the University, the Placement Service is able to have the best results in procuring the type of employment for which the student is best suited.

The requirement for admission, registration, graduation and classification in the summer sessions are the ones used in the regular sessions.

Y. W. C. A. To Install New Officers Sunday At McVey Home

The Young Women's Christian Association will hold its formal installation services of officers for the ensuing year on Sunday evening at 8 o'clock at Maxwell Place, the home of President and Mrs. Frank L. McVey. Following the services both the old and new cabinets will be entertained informally.

The new officers to be installed are Alice Spaulding, president; Bernice Byland, vice president; Elizabeth Hensley, secretary; Evelyn Cooley, treasurer, and Rosanna Ruttenutter, chairman of the finance committee.

They will succeed Margaret Gooch, Elsie Bureau, Evelyn Cooley, Dora Mae Duncan and Alice G. Whittingham.

Dr. Price Is New Member Of Agricultural Faculty

Dr. H. B. Price, of the University of Minnesota, has been secured to head the department of "Markets and Rural Finance" in the College of Agriculture. Dr. Price arrived here last week and will begin active work in the coming fall term. His department, deals with the work of the experiment station and the extension projects. He is successor to Dr. O. B. Jessness, absent from the department since last August. Mr. E. C. Johnson has been acting head during that time. Dr. Price holds a Ph. D. degree from Yale.

Dean Boyd returned Sunday from Bloomington, Ind., where he attended a two-day meeting of the deans of colleges of Liberal Arts in state universities. Eighteen deans were present at the meeting.

Class In Typography Uses Kernel As A Type Project

By Melvina H. Pumphrey

Cast your eye over this front page and see how you like it. It's different from the usual make-up of The Kernel, and in case you don't know what's wrong with the picture, we'll slip you the tip that you're looking at an entirely new set of headlines.

Prof. Victor K. Portmann's class in typography has taken over the headline make-up of The Kernel for this week and next, as a type project and is writing all the "heads" and setting them up by hand. This week the main "heads" are set in Franklin Gothic Condensed, and the feature heads in Cheltenham Bold Italic Condensed. The body type is seven point Ionic, as usual. Next week they will be set in Bodoni Bold. This is done not so much to give the members of the class practical experience in setting heads as it is to give the readers of The Kernel a chance to compare the two styles with the style ordinarily used by The Kernel, and see which they like best.

An attractive front page is one of the first essentials of a good newspaper and it is the aim of The Kernel staff to give the students the best paper possible, so that if you like one of the two new headline schedules better than the usual one your opinions will be welcomed and given consideration.

In order to use this new kind of type an entirely new headline schedule had to be devised, which work Professor Portmann's class has undertaken and you can judge their success. This class has been doing work in typography which is offered for the first time this semester under the instruction of Professor Portmann. A complete equipment was installed at the beginning of the year in the basement of McVey hall which includes eight type case stands, eight cases of schoolbook 10-point type, six sizes of Franklin Gothic Condensed and five sizes of Bodoni Bold, plus all other necessary equipment.

The class meets for a lecture on Tuesday, on Thursday for a two-hour laboratory in which they do copy-reading and headlining, and on Saturday they set type—straight matter and fancy—learn how to compose a form and to set ads. This is a required course for journalism majors so that when they graduate they will be able to edit, make-up man, reporter, or what-have-you, as well as have some knowledge of typography.

The members of the class are Hugh Adcock, Maude Van Buskirk, Jane Ann Carlton, Hugh Ellis, Buel Gaskin, Mary Holt, Florence Kay, William Reep, Robert Sharon, Marjorie Smith, Wayman Thomasson, and Melvina H. Pumphrey.

Professor Rhoads To Represent U.K. At Geneva Meeting

University Instructor Elected As State's Representative At W. F. E. A.

Education Conference Convenes July 25 To August 4 In Switzerland

Prof. McHenry Rhoads, of the College of Education, will be Kentucky's representative to the World's Federation of Educational Associations which convenes at Geneva, Switzerland, July 25 to August 4. According to present arrangements Professor Rhoads will sail from Montreal June 21, and will return to the United States about September 2.

Professor Rhoads was selected by the Kentucky delegation to the National Educational Association which met in Minneapolis last year, to represent the state in the world conference. He was Kentucky's delegate to the last conference which met at Toronto, Canada, in 1927.

The World's Federation of Educational Associations was organized at Los Angeles in 1923, and has as its main purpose the creation of friendly relations between the nations of the world and the promotion of world peace through education. Meetings are held bi-annually. According to Professor Rhoads, 23 nations will be represented at the world conference. The United States will be represented by one delegate from each of the 48 states and also by delegates from Alaska, Philippine Islands, Hawaiian Islands and Porto Rico.

Although Professor Rhoads has traveled extensively in the United States and Canada this will be his first trip abroad. He is planning to tour France and Italy before the convention assemblies in the latter part of July and will visit Holland, Belgium, England, Scotland and Ireland during August after the convention has been disbanded.

Y.W.C.A. And Y.M.C.A. Cabinets Discuss Plans

The cabinets of the University Young Men's and Young Women's Christian Associations met in joint session at Camp Daniel Boone last week-end, where they made and discussed plans for 1929-30. The party, made up of forty members of both this year's and next year's cabinets, was chaperoned by Miss Margaret Lewis and Mr. Bart Peak, Y. W. and Y. M. secretaries, respectively, and Miss Marie Barkley of the home economics department, chairman of the Y. W. C. A. advisory board. The directors of the camp were Virgil L. Couch and Penrose Ecton.

Students Will Attend Blue Ridge Conference

The University of Kentucky will send at least six representatives to the Blue Ridge Student Conference, June 14-24, according to announcement by Bart Peak, secretary of the Y. M. C. A., yesterday. Those who have made reservations are Henry Cravens, Joe Ruttenutter, R. J. Edwards, John Cochran, Virgil L. Couch and Mr. Peak. Several others are expected to enroll soon. Fletcher S. Brockman will be one of the prominent speakers at the conference.

SENIOR EXAMS TO BE HELD ON MAY 20 - 21

May 20 and 21 are the dates that have been set for senior examinations. A list of all candidates for degrees will be sent to the instructors by May 17. Seniors whose names are underscored on this list are eligible to be exempted from examinations in all classes in which they are making a grade of B or above.

Y. M. C. A. Workers Are Awarded Keys

Couch, Ecton, and Greene Are Honored For Their Outstanding Work

Keys for special service rendered the University Y. M. C. A. were awarded to Virgil L. Couch, Penrose Ecton and D. S. Greene at a recent meeting of the advisory board. These three men have been outstanding in the senior cabinet work for the last three years.

In order to be eligible for this award, a student must have rendered a distinct service for three years or outstanding service for two years. Couch is the only one in the cabinet for three years. He was president of the 1928-29 school year. Ecton has been a member of the cabinet for three years and has been vice president and director of the freshman cabinet. Green was awarded a key for outstanding work in promoting religious meetings.

The maximum number of keys to be awarded each year is five and thus far three is the largest number to be given. The names are recommended by the cabinet.

Dr. Terrell Sustains Minor Injuries Monday When Horse Falls

Dr. Granville Terrell, professor and head of the department of philosophy at the University, suffered a sprained ankle and knee and narrowly escaped more serious injury when his horse fell while he was horseback riding at the experiment station farm Monday afternoon. Dr. Terrell was unable to meet his classes Tuesday, but sufficiently recovered to have them on Wednesday and spoke at the Phi Beta Kappa banquet Wednesday night as scheduled.

Dr. Terrell, who is retiring this year, has served for twenty years as professor of Greek and philosophy at the University, and was the first president of the Kentucky chapter of Phi Beta Kappa.

Dr. Terrell plans to ride to his home in Louisa county, Virginia, at the close of school, despite his injury Monday. He received national prominence in 1927 when he made this ride.

Suky Holds Election For 1929-30 Officers

The Suky Circle held its annual election of officers last Tuesday afternoon. The officers elected are to serve throughout the remainder of this year and next. Frank Davidson, Sigma Nu of the Arts and Sciences College, was elected president; William Young, Triangle, of the Engineering College, was elected vice president; Mary Brown, Chi Omega, secretary; Mildred Little, Zeta Tau Alpha, assistant secretary, and Frances Baskett, Alpha Gamma Delta, treasurer.

Five Elected By Phi Beta Kappa For Scholarship

Arts and Sciences Students Are Signally Honored by Honorary Fraternity

Russell Park of Richmond Makes Straight "A's" for Four Years

Phi Beta Kappa, an honorary scholarship fraternity, elected five students of the University to their membership last Friday. The students of the University to their membership last Friday. The students elected were Russell Smith Park, Howell Davis, Sara F. Clarke, Mrs. Katherine Hodge Threlkeld and F. Lorraine Yost. This is the highest honor that can be bestowed upon a student in the College of Arts and Sciences.

Russell Smith Park, of Richmond, Ky., was elected with a standing of 3. He is the second student to go through the University with all of his grades being A's, the first being Lydia Florence Roberts, who was elected and initiated last semester. He majored in physics and minored in mathematics, two of the hardest courses in the University.

F. Lorraine Yost, of Punxsatowney, Pa., who majored in German and minored in physics and mathematics, was elected with a standing of 2.9. Mrs. Katherine Hodge Threlkeld, of La Habra, Calif., is now in that state, and will return for the reunion of her class and the commencement exercises the last week in May.

Sarah F. Clarke, of Midway, an English major, had a standing of 2.5. Miss Clarke will sail July 4 for Japan, where she will remain for six years. Howell Davis, of Lexington, a major in zoology, will enter the study of medicine. He had a standing of 2.6.

The students elected were initiated at a banquet held Wednesday night in the Phoenix hotel. The orator of the banquet was Dr. Clark Wissler, curator of ethnology, of the American Museum of Natural History and professor of anthropology at Yale University.

Officers-elect for the year are: Prof. W. S. Webb, president; Miss Mary Lewis Marvin, vice president; Prof. W. S. Allen, secretary, and Roy B. Sherman, treasurer.

W. A. A. Will Present Vaudeville Act Tuesday

The Women's Athletic Association of the University will present a program of vaudeville featuring its tumbling team on Tuesday evening at 8 o'clock in the Women's gymnasium. The program is under the direction of Miss Helen Skinner of the women's physical education department and besides the tumbling will consist of dancing and singing acts. All University students and members of the faculty and others who are interested, are cordially invited to attend. Tickets are on sale for twenty-five cents.

Non-Fraternity Students Lead In Scholarship

Members of Alpha Gamma Epsilon fraternity of the University won the Young Men's Christian Association scholarship and the Alpha Delta Theta sorority won the Women's Pan Hellenic scholarship cup offered to the sorority and fraternity making the highest collective standing. Non-fraternity men and women made higher standings than members of Greek letter organizations, according to a statement issued from the dean of men's office.

There were 1,666 men students regularly enrolled during the first semester, and 374 were members of men's social fraternities, an average of 22 per cent. Fraternity men had an average standing of 1.262, while non-fraternity men had 1.272.

Seven hundred and 36 women students regularly enrolled during the first semester, of which 278 are members of women's social fraternities, maintained an average of 1.51, while non-sorority women had a standing of 1.596.

The Alpha Gamma Epsilon fraternity men made a standing of 1.615 to win the scholarship cup. The second highest score was made by Delta Tau Delta fraternity with 1.525, while members of Alpha Gamma Rho, who have won the cup for three semesters in succession, came third with 1.505. No fraternity made a standing of less than 1.

This is the third consecutive time that Alpha Delta Theta has won the scholarship cup, which comes in to their permanent possession. The sorority leaders had a collective standing of 1.77. Second place was

Strollers' Officers Selected For Year At Annual Banquet

Frank Davidson Elected To Lead Dramatic Organization Next Year

Thomas L. Riley To Be Director; Other Officers Are Named

The annual banquet and election of officers of Strollers, student dramatic organization of the University, was held Thursday, May 9, at Chamney Corner. Frank Davidson, of Barbourville, who was the director of Strollers this year, was chosen president of the organization. Davidson is a Sigma Nu, and a junior in the College of Arts and Sciences.

Thomas L. Riley, of Henderson, Pi Kappa Alpha and sophomore in the College of Arts and Sciences, was elected director. The other officers for next year are James Dorman, of Lexington, Kappa Sigma, junior in the College of Arts and Sciences, business manager; James C. Thompson, of Lawrenceburg, Kappa Alpha, sophomore in the College of Arts and Sciences, stage manager; Verna Law, of Ottumwa, Iowa, freshman in the College of Arts and Sciences, secretary, and Morris Scott, of Frankfort, Sigma Alpha Epsilon, freshman in the College of Commerce, publicity.

The program consisted of short talks by Bob Thompson, retiring president, Frank Davidson, Frank C. Fowler, Miss Marjorie McLaughlin, Miss Willy King, and members of the organization who went on the tour with "Square Crooks." Miss Marguerite McLaughlin, Miss Willy King, Mrs. James Crutcher and Frank C. Fowler were the guests of honor.

The new members of Strollers are Ruth Bonnin, Andrew Hoover, Alice Spaulding, Verna Law, Earl Cella, Ann Caywood Talbot, Morris Scott, Clay Roff, Rex Allison, Irman Fort, D. M. Hurd, Preston Ordway, Margaret Cundiff and Jessie Marie Sun. The pins for the new members have been ordered and will be received in about two weeks.

Commissions Awarded To Cadet Officers

Regimental Sponsors Given Honorary Rank At Review

Honorary commissions were given to retiring cadet-officers, and sponsors, and the newly appointed sponsors, at the review held yesterday on Stoll field.

Fifty cadet officers received commissions for their past work in the military department. The newly appointed and retiring sponsors of the various companies receiving honorary commissions are: Misses Ruth Bonnin, colonel; Martha Reed, major; Frances Baskett, captain; Georgia Walker, captain; Mary Armstrong, major; Hazel Baucum, captain; Josephine Lapsley, captain; Mary Fisher, captain; Laura Pettigrew, captain.

The honorary commissions received by the retiring sponsors are: Miss Lucille Short, colonel; Sara Warwick, major; Julia Marvin, captain; Ann Rhodes, captain; Mary Lewis Marvin, captain; Kathryn McWilliams, major; Eleanor Swearingen, captain.

Professor Terrell Will Ride 700 Miles To Former Home

By Lois Purcell

June the first will see our professor emeritus of philosophy, yes, our own Granville Terrell, leaving the campus of the University of Kentucky on the back of his faithful mare, "Katy," for a 700-mile jaunt through the Cumberland mountains to his boyhood home in Louisa, Va.

This solitary traveler will leave the haunts of man and traverse the ancient wilderness roads followed so long ago by our pioneer ancestors, headed by the immortal Daniel Boone. For companions he will have his horse, the birds and beasts of the forest, the fish of the streams, the glories and beauties of nature undisturbed, and memories of those who have taken the trail before him. The roof of his house will be the sky, Mother Earth his bed, the campfire of ancient man his hearth and stove, while the bounds of his wanderings will be unlimited.

For one month of primitive pleasure "Doc" Terrell will be alone with nature in all its glories of early summer beauty, and unlike the present-day traveler who rushes from hotel to hotel in an automobile, comfortable Pullman car, or the rapid transit airplane of more recent date, he will wind his way slowly over the mountain trails and through the valleys on horseback—the mode of travel which men used

Miss Martha Reed To Sponsor State At Flower Festival

University Sophomore Selected To Represent Kentucky At Asheville, N. C.

Annual Rhododendron Show To Be Center Of Many Gala Events

Miss Martha Reed, of Carlisle, Ky., a sophomore in the College of Arts and Sciences at the University and a member of Alpha Xi Delta, has been selected to represent Kentucky in the annual Rhododendron Festival of Western North Carolina at Asheville June 17 to 22. She will act as a sponsor from the State of Kentucky.

While in Asheville Miss Reed and her chaperone will be the guests of the city. Miss Reed will be a guest of honor at a series of social functions, informal dances, and formal balls. A Rhododendron Queen will be chosen and the sponsors will be members of the queen's court throughout the week's festivities. These include among other things a coronation ball, the floral parade, the festival of states, the rhododendron drill, and many other "program" features.

In a letter from the Asheville Chamber of Commerce to Miss Reed, Fred L. Weede, manager of the festival states: "In order to be assured of the very finest and highest type of Southern womanhood, we have this year asked the presidents of the state colleges for women or the state universities to designate the young ladies who will be the sponsors from their states on this occasion."

Miss Reed is sponsor of the first battalion, a Stroller eligible, member of Guidon, honorary society for the various companies receiving honorary commissions; winner in the 129 beauty contest, and was crowned Queen of May at the University two weeks ago. Last year she was a member of the Y. W. C. A. and W. S. G. A. councils, and vice president of the Agriculture society. Miss Reed and her mother, Mrs. Henry Reed, of Carlisle, who will act as official chaperone, will leave for Asheville June 16.

Announcement will be made next week as to the winner of the participation trophy and the standing of the various fraternities for the closing intra-mural athletic season.

Engineers' Day To Be Held On Friday, May 24

W. H. Driscoll Will Address Student Assembly In Dicker Hall

Annual Masked Ball Will Be Held In Evening At Gymnasium

The annual Engineers' Day of the College of Engineering will be held next Friday, May 24. An address by W. H. Driscoll, of New York City, in the morning, an open shop for visitors to the College of Engineering from 2 to 5 in the afternoon, and the annual masked ball in the Men's gymnasium from 9 to 1 that night will be the chief events of the day.

W. H. Driscoll, of the mechanical department of the Thompson-Starrett Company, of New York City, who will speak before the students at the general assembly in Dicker hall at 10 o'clock, is well known to the students of the Engineering College. This will be his third appearance before that group in as many years.

In the afternoon from 2 to 5 o'clock, visitors will be permitted to inspect the buildings and equipment of the college. Place cards bearing descriptive and explanatory information will assist the visitors in their tour. Guides will be provided to conduct the parties through the various buildings.

Visitors from Lexington as well as students from the other colleges of the University, are expected to period. The newly completed heat-treat advantage of this "open house" and the venting laboratories erected on the south side of Mechanical hall will also be open for inspection at this time.

Activities of the day will culminate in the annual Engineers' ball from 9 to 1 o'clock that night. This event is one of the chief social affairs of the year. "Preach" Givens and his orchestra and Toy Sandefer's musicians will divide time in furnishing the music for the evening. The dancers will be arrayed in masks and costumes which, judging from previous events, will be the last word in novelty and variety. The gymnasium will be profusely decorated for the occasion. Chaperones will be members of the engineering faculty, Dean C. R. Melcher, Dr. and Mrs. Frank L. McVey, and Dean Sarah Blanding. Tickets for the ball may be obtained in Mr. Dicker's office in Mechanical hall.

Prof. B. Smith Hopkins Of Illinois To Address Chemical Society Today

The 135th regular meeting of the Lexington section of the American Chemical Society will be held in the Physics lecture room today at 3:15 p. m. Prof. B. Smith Hopkins, professor of Inorganic Chemistry at the University of Illinois, will speak on the topic of "The Rare Earths."

Professor Hopkins will exhibit samples of material and illustrate his lecture with slides. His talk will also interest those not especially interested in this field. The discoverer of Ilium will report on recent work with this element. Dr. J. G. Black will exhibit a dynamic model of the sodium atom.

At the conclusion of this meeting the annual election of officers will take place.

University Girls Will Leave For Camp Soon

The annual spring camp of the Women's Athletic Association will be held this week-end at Shen's camp on the Kentucky river, two miles from Camp Daniel Boone. Miss Helen Skinner, assistant director of physical education, will chaperone and direct the trip. All University girls may attend the camp by signing the poster on the bulletin board in the Women's gym. Permission from home is required for swimming. The party will leave tomorrow at noon and return Sunday night.

Scott Succeeds Hester As Council President

Smith Scott, Alpha Gamma Rho, was elected president of the Men's Student Council at the last meeting. Scott succeeds James Hester and will act as president of the council next year. The various classes are at present electing their council representatives to serve for next year. Most of the elections are to take place this week.

SPALDING RECEIVES GIFT

A silver pitcher and goblet has been given to Major Spaulding by the R. O. T. C. regiment. Major Spaulding will leave Lexington next Thursday for New York in preparation for his new duties in Alaska.

Dr. Pryor Retires After 39 Years of Service at U. of K.

Internationally Known Authority on Ossification of Bones Will Suspend Active Class Room Work July 1; Administered Ether for First Time in History of Lexington

(By Elizabeth Gibbs)

After 39 years of service to the youth of the University of Kentucky, Dr. J. W. Pryor, internationally known authority on the ossification of bones, has been assigned to research work and will retire from active teaching July 1, 1929. He will still be connected with the University but his absence from the class room will be keenly felt by the many students who love and respect him.

Dr. Pryor first became connected with the University as Medical Examiner in 1886 when the institution was an Agricultural and Mechanical college known as the State College. He began his classroom instruction work in 1890 and since that time has been continuously connected with the institution.

Dr. Pryor holds the distinction of being the only man in Kentucky whose name is listed in all of the following organizations: American Men of Science, Who's Who in America, Who's Who of American Physicians and Surgeons, and Who's Who of American Authors. He was the first man to administer ether in Lexington.

Born in Palmyra, Mo., on April 3, 1856, Dr. Pryor received his early education in a private school of that city. He later was graduated from St. Paul's College, an Episcopal school of that community, and finished his schooling as a graduate of the Medical Department of the University of Missouri. He began his career as a general practitioner in Palmyra and treated his first patient in the same house where his father, also a doctor, had treated his first Missouri patient 25 years before. Several years later he went to St. Louis where he was for one year in the office of Dr.

John T. Hodgen, then known as the greatest surgeon in the West. He came to Lexington, Ky., in 1882, and since that time has made his home here.

In 1899 Dr. Pryor became the third man to teach Physiology in the State College, succeeding Dr. Thomas Hunt Morgan, who is now professor of Experimental Biology at Columbia University. Before 1888, physiology had been taught in connection with natural history. Shortly after this the college established one of the first pre-medical courses in the United States. Among the many well known men who have studied under Dr. Pryor was the late Dr. Arthur S. Loevenhart, former head of the Department of Pharmacology and Toxicology at the University of Wisconsin, and Dr. William Carpenter MacCarty, present pathologist of the Mayo Clinic. Dr. MacCarty has often said that he received his inspiration from Dr. Pryor and recently wrote the latter a letter in which he said: "I am sending you some of my recent reprints, showing your influence still exists."

Dr. Pryor first became interested in X-ray research work in 1890 following an accident which occurred to a student in the College of Engineering. The young man lost several fingers in a planing machine and Dr. Pryor dressed the wound. Some time later he had an X-ray made of the boy's hand to see how the ends of the bones were healing. From this time he made frequent pictures of children's hands in order to study the ossification of the bones.

In this work he has made several discoveries relating to the growth of the bones and he was the first man to establish the difference in the ossification of the male and female skeletons. He also discovered that ossification begins much sooner than had been thought before, and corrected the prevailing textbooks on the nature of ossification in the carpus. These views have been accepted by textbooks all over the world and accredited to Dr. Pryor.

During the time he has been connected with the University, he has been a member of the City Board of Health and the Fayette County Board of Health for more than 10 years until his resignation. He has also been president of the Fayette County Medical Society, first vice president of the Kentucky State Medical Society, and a member of Source Research Council of the United States.

Dr. Pryor read a paper on ossification before the Anatomical Society of Great Britain and Ireland, in London on November 25, 1927, and again before the Anatomical Society, Ecole de Medecin, in Paris, France, on December 1, 1927. This paper titled "Differences in the Time of Appearance of Centers of Ossification in the Male and Female Skeleton" has since been translated into French and German and has been reviewed in the latter language by Dr. Heusselwander,

Professor Likes Mencken's Style

NEW YORK, N. Y.—That H. L. Mencken is the outstanding critic in America today, writing that students of the present are not different from those of his undergraduate years are the opinions expressed by Professor Goodman of the college of the City of New York when interviewed recently.

His criticisms in judging prose style are suggested by the names that most frequently crop up in a conversation with him. Willa Cather, Thornton Wilder, James B. Cabell. It is difficult to pin him down to any specific preferences in current literature. Grudgingly he will admit to you a liking for Willa Cather, May Sinclair and then stop to explain that one who reads so much in contemporary literature is compelled to look for an author's purpose in writing in book and not to think in terms of favorites. At the risk of repetition we will say that no one can have any dealings with Professor Goodman and not be inspired to read something of Willa Cather's.

Although professors make Mr. Mencken froth at the mouth, Professor Goodman, more tolerantly, considers him an excellent critic, in truth the only outstanding one in America at present. Stuart Sherman, he would rank above Mencken were he alive. He refers to Babbitt as a "frightfully written novel" whose style is like that of a mediocre journalist. He discerns in the books of Willa Cather, James Branch Cabell and in The Bride of San Luis Rey, or rather in their popularity, a definite movement away from naturalism and realism.

In person Professor Goodman is short and stocky with a trace of the aesthetic. He dresses soberly and with unusual fastidiousness. He is a dark visaged person. He has a classroom laugh that approaches the giggle of a girl and which we would not dare try to reproduce.

He does not find the student of today to be far different from the student of his day. "He has better sense of values and knows the value of money better," but his equipment shows deficiencies. He hasn't read as much and as good things. Only one out of fifteen recognize the names of Willa Cather, Professor Beard and William Beebe. The majority of freshmen can hardly differentiate Wells from Shaw. A striking number never have been to a museum. Goodman feels that college does much to remedy this whether the student wills so or not.

Class rivalry is today as intense as then except that then the juniors were aligned with the freshmen, and the seniors with the sophomores. Professor Goodman still carries a souvenir booklet passed out at the soph banquet of the class of '19 to which he was invited as a senior. Professor Goodman's remark about student government should have a special significance to some: "I don't know anything about the student council today, but in my day it was a talkative and very often inefficient body, and a great disappointment to one who believed in student self-government."

We like to conjure the image of Professor Goodman teaching Theodore Dreiser.

publisher of research work on ossification. Sir Arthur Keith, renowned anthropologist and recently retiring president of the British Association for the Advancement of Science, recently wrote to Dr. Pryor requesting a photograph which he said he wished to place "among our truly great" in the halls of the Royal College of Surgeons of England at Lincoln Inn Fields, London.

Dr. Pryor's most recent article, "Arts-Medical Courses" appears in the "Journal of the Association of American Medical Colleges" for April, 1929. In this discourse, he sets forth an ideal schedule of studies for a premedical course.

Present students in the pre-medical work at the University of Kentucky have shown their high esteem and affection for Dr. Pryor by naming their pre-medical society in his honor, "The Pryor Pre-Medical Society." While it cannot add to the international honors which have been bestowed on Dr. Pryor, it is a tribute which will perpetuate his memory at the University of Kentucky.

1929 International Debates Announced

Foreign Universities to Send Teams to America for Forensic Meets

Next autumn American colleges and universities will again have the opportunity to debate with several foreign debating teams under the auspices of the National Student Federation of America. These teams will represent Oxford University, Cambridge University, and Victoria University College of New Zealand. A charge of \$125 for each debate is made to the American colleges wishing to hold a debate with one of the visiting teams to meet expenses. Colleges should make application to the Foreign Relations Office of the N. S. F. A. at 218 Madison avenue, New York City.

The activity of international debating was started about five years ago under the auspices of the Institute of International Education and was turned over to the Foreign Relations Committee of the N. S. F. A. a year ago. At first only teams from Oxford came to the United States for debating but as the interest in international debating grew in this country, Cambridge and the British Dominions began to send teams also. Each team spends about seven weeks in the fall term traveling through one section of the United States meeting our colleges in debate. The National Student Federation of America plans to rotate the territory visited by the teams and this year is sending the Oxford team west of the Mississippi river, Cambridge through the south and central West, and New Zealand to the East.

As it is impossible for the English teams to meet their own traveling and living expenses during the tour, American universities have always invited these foreign teams as their guests. Each American college included in the schedule of the visiting teams pays a fee of \$125 and offers hospitality to the members of the team for the day of the debate.

During the past year two teams came from England and one from Australia, and one from the National Federation of Canadian University Students. One of the English teams was the first woman's team to come to the United States for international debating. It represented the National Union of Students of England and had a most successful tour. Next fall one of our visiting teams will be the first debating team to visit the United States from New Zealand.

The sudden whistle from the

Geologists and Botanists Sponsor Back to Nature Movement on Trip

(By Sara Elve)

Three train coaches, filled and overflowing with University and Transylvania geologists, botanists, faculty, and general pleasure seekers, drew out of Union station at 7 o'clock Saturday morning on an annual trip, bound for parts unknown—otherwise called Natural Bridge, Ky.

Imagine the three coaches full of students, all voicing the most boisterous enthusiasm for the back-to-nature movement, invading the peaceful wilds of Natural Bridge. It taxes the imagination, somewhat. Nevertheless, the caretakers of the park look forward each year to the coming of the special train, which is chartered under the banner of the University of Kentucky. For the majority of the sight-seekers bring their own lunches, and such lunches and wraps must be checked—at ten cents a basket. The number of people being numerous, and the number of baskets not less, the sum total you can figure out. If, perchance, you wish a towel and soap, pay ten cents extra and help yourself. And cakes are ten, and hot dogs are ten and—the air and scenery are free. (What's that song about the best things in life are free?)

Led by Professor Robinson and Toy Sandefur the geology students mounted the top of natural bridge, and besieged those geologically versed persons with questions concerning its age, formation, and structure. Led by Dr. McFarland and Professor McIntyre, the botany students surveyed the ground for new specimens of plant life. Those not interested in either of these subjects stayed behind, or climbed the roundabout paths of the mountains in hopes of seeing a bear or of falling off a cliff.

One of the students from Transylvania climbed up the Pinnacle Rock and decided that he could not possibly return to level ground. His frantic attempts to regain terra firma led another student to procure a rope, and the aspiring Trans student reached earth in safety. Twelve o'clock recalled the baskets to the minds of the mountain climbers, and they scrambled off the bridge and returned to the cultivated wayside, when the two geology pros started a two mile hike up the railroad tracks to view some faults and folds. Those who stuck it out returned to camp, sadder and wearier men—and women. The sudden whistle from the

train caused a hurried scramble for seats, and at 4:30 the return trip Union station. Out rushed the student mob, giving general proclamation of the fact that a good time was had by all. But "Toy" and "Robbie" are probably wondering, "what did those kids learn about geology?"

Friday, May 17
Pi Kappa Alpha Mothers' Club meeting at the chapter house.
Keys, honorary sophomore fraternity, banquet.
Wednesday, May 22
President and Mrs. McVey's afternoon tea for the students and faculty.
Friday, May 24
University Engineering Day. Annual engineers ball.
Sigma Xi, honorary scientific fraternity, annual banquet at the Lafayette hotel.

WEDDINGS

Gorman-Harris
The following announcements, attractively engraved, have been issued:
Mr. and Mrs. John A. Gorman announce the marriage of their daughter Elizabeth Belle to Mr. Henry Dell Harris on Thursday, May second nineteen hundred and twenty-nine Lexington, Kentucky.
At Home
371 Linden Walk Lexington, Ky.
The marriage was solemnized in the afternoon in the parlor of the Maxwell Street Presbyterian church and was a quiet event. Rev. Howard M. Morgan, the pastor of the church, was the officiating minister.
Mrs. Harris is the daughter of Mr. and Mrs. John A. Gorman of West Sixth street, and was a student of the University for three years where she belonged to several of the organizations. She was also a member of the first University Co-ed band.
Mr. Harris is the son of Mr. and Mrs. R. T. Harris, of Owensboro, Ky. He received his A. B. degree from the College of Education of the University in June, 1928, and is a successful young business man of this city, now manager of the G. R. Kinney Shoe Company.

Foster-Beehler

Announcements have been received as follows:
Mrs. James Henry Foster announces the marriage of her daughter Violet Louise to Mr. William Norris Beehler on Tuesday, the seventh of May nineteen hundred and twenty-nine Lexington, Kentucky.
At home
620 Sayre Avenue Lexington, Ky.
Miss Foster is the daughter of Mrs. Henry Foster, of Lexington, and a senior in the College of Education.
Mr. Beehler is the son of Mr. and Mrs. W. J. Beehler, of Baltimore, Md., and is executive secretary of the Lexington Family Welfare Society and assistant instructor in the department of sociology at the University.
Mr. Beehler was graduated from the University of Richmond, Richmond, Va., where he was a member of Omicron Delta Kappa, Sigma Upsilon, Tau Kappa Alpha, and the national social science fraternity. From Richmond he went to Yale University for graduate work and from there to the New York School of Social Work, from which he

was graduated in 1926. Since that time he has been engaged in various phases of social work in the tenement districts of New York, New Haven, Conn., Jersey City, Richmond, Va., and at Louisville, Ky.

He was appointed secretary of the Lexington Family Welfare Society September 1, 1927. In the fall of 1928 he became part-time instructor in the department of sociology, and will serve in a similar capacity next year. Mr. Beehler is active throughout the state in social work affairs, and this year is president of the Kentucky Conference of social work.

Cleveland-Hareison

The following announcement has been issued:
Mrs. Charles Cleveland announces the marriage of her daughter Katherine to Mr. Henry Lloyd Hareison on Tuesday, May the ninth nineteen hundred and twenty-nine Lexington, Kentucky.
Both Mr. and Mrs. Hareison were graduated from the College of Engineering at the University in the class of 1924, and have many friends in the city.
They will make their home at Stone, Ky., where Mr. Hareison holds a position with the Fordson Coal Company.

Pressley-McChesney

Mr. Harry B. McChesney, Jr., of Frankfort, Ky., and Miss Elizabeth Pressley, of Lexington, were married in Paris, Ky., Monday afternoon. Magistrate Horace M. Collins performed the ceremony. Mrs. McChesney is the daughter of Mr. and Mrs. Harry B. Pressley, of Lexington and attended Hamilton College.

Mr. McChesney is the son of Mr. and Mrs. Harry V. McChesney, of Frankfort, and is a student at the University where he is studying law. He is very popular on the campus and is a member of the Kappa Alpha fraternity, Strollers and the SuKy Circle.

The couple is now residing at the home of Mrs. Pressley until the school term is ended. They will then go on a wedding trip.

ENGAGEMENTS

Marriage Date Set

The date for the marriage of Miss Legrand Geary to Mr. Guy Briggs, Jr., of Frankfort, has been set for June 1.

Miss Geary is quite talented and attractive and studied at the Sacred Heart convent in Cincinnati and at Madame Colots school in Paris, France.

Mr. Briggs is the son of Mr. and Mrs. Guy Briggs, of Frankfort. He is a graduate of the University.

"Chesterfield preferred!"

The story is told that a certain man once impounded a famous financier for a loan involving a considerable amount of money. "I cannot give you the cash," the magnate is said to have replied, "but I'll let you walk arm in arm with me across the floor of the Stock Exchange."

Pardon our enthusiasm, but it's a good deal like that with a man and his cigarette. To be seen smoking a Chesterfield, for example, is to be marked as a gentleman, a scholar, and a judge of good tobacco!

Kentucky Colonel or swashbuckling corporal in the Royal Mounted—Wall Street magnate or dashing cowman of Cheyenne—a Chesterfield smoker is entitled to respect (and yes, even credit!) from his fellows.

Go where you will, you'll find Chesterfield everywhere admitted to the inner circle of those in the know. Such endorsement was earned—by good tobacco and taste—with six million voting.

ALIBI

The time of the year when a young man's fancy lightly turns to thoughts of the more beautiful things of life, brings with it the lassitude of dreams and pleasant memories, but in the background of student life, final examinations loom ominously with their threat of proctorial censorship. In less than three weeks the efforts for this semester's work will be tabulated and the folks back home will wonder what sort of grades son or daughter has made.

Students ought to remember, if efforts for the semester have brought high marks, to make the best of this success. But if things didn't go so well and the standing isn't a credit to ability, don't offer an alibi to the ones who are trusting in the success of your college career. They will sympathize or rejoice as the need may be.

People who resort to the lowly alibi never make a success of anything. If grades have not been high, stand up like a man and take your medicine. Remember that Homer could have sat on the cold pavement of Athens and begged homage from the rich, who, no doubt, would have pitied him and tossed bits of good into his waiting hands, for Homer, like Milton, had the best of an alibi. He was blind.

A long list of the world's greatest men have been in positions such that all could have made use of an alibi, but they all chose to dig right in and make a success of themselves, despite handicaps. Julius Caesar was an epileptic, Beethoven was stone deaf, Pope was a hunchback, and Napoleon was scourged by a cancerous stomach. Robert Louis Stevenson wrote from his sickbed. Booker T. Washington was a negro and a pauper.

All these men could have been failures and could have justified their shortcomings with an alibi. The road to achievement in not traveled on the soft pedals of excuse. The semester is not over. There is yet time to make up for many hours that have slipped by without apparent notice. In order to do so try to make these last days of school bring the success which has been sought throughout the year. If you fail, don't use an alibi, for an excuse is a confession of failure. The old admonition to strike while the iron is hot means, in collegiate language, "Study while there is time and opportunity."

RATIONALIZING SCHOLARSHIP

[Indiana Daily Student]

Deriving the almost universal acceptance of the statement that good students are more apt to succeed in life than poor ones, an editorial writer of the Daily Illini of the University of Illinois ventures the statement that it is not true. The reason, it is said, is that good students are more apt to be the ones who accept the words and the statements of professors and textbooks religiously, while mediocre and poor students are more prone to question them.

Whether or not students who make excellent grades are more successful than the others is a question that does not interest us. It is rather the explanation of the reason for poorer grades.

Some of the most brilliant minds in the universities have won but mediocre marks in studies because they were unwilling to accept all that their instructors have said and that their books have taught. That class, however, is small. The question of whether or not to accept an instructor's statements as true

is one that rarely if ever occurs to the average student.

A course to many a student is but one of the hurdles on the way to the desired sheepskin. The content of the course is, to many students, just so much material to be shoveled into the recesses of the brain and to be held there until final examination time. When the student fails to retain enough to make a good grade he is prone to rationalize and ascribe his failure to many extraneous causes. It is doubtful whether his grade was poor because he failed to agree with the instructor and with what he read. It would be just as wise to place the blame on fraternity study conditions, laziness, failure to adapt himself to study, too much extra-curricular activity, or any of a half dozen other causes.

The average instructor is not the intellectual despot pictured. He is not so dogmatic that he would penalize students who refused to side with him on mooted questions. Such a procedure would strike at the heart of education by tending to stifle initiative and impede further progress. Where there is room for a reasonable amount of doubt both sides of the question invariably are given. Rationalization of poor scholarship on these grounds will not decide the issue.

LIBEL

To the man on the street, the college boy is an idler. He is a millionaire's son, who rides to his institution of learning either in an Hispano Suiza with a chauffeur and footman in front or a snappy yellow and green roadster with which he makes every effort to run over innocent pedestrians. Study? Why, that has never occurred to him. In fact, it is well known that only a few book worms go to college to study. The rest of them, if they are very energetic and athletic, engage in football contests every now and then. But most of them are neither energetic nor athletic. Lacking muscles, they seek to make up for this defect by using their brains.

Let your college student be seen in intimate conversation with a young lady. Result? All college students are oversexed and degenerate perverts who neck and pet and illegally increase the population. Let your college student slip a drop of pre-war at a cold football game. Result? All college students are immoral drunkards who pursue their ideals by breaking the laws of this land of the free. Let your college student reprint an interesting article on the problem of marriage from another collegiate publication. Result? Shame commands us not to reprint any of the communications received as a result of so bold a deed.

Frankly, we are getting sick and tired of being maligned, misquoted and jeered at by those who, never having attended college and hence neither knowing nor caring what it is like, have brewed a mixture of jealousy and ignorance into their reports and opinions of American college life. The state, the movie and the newspapers are not alone to blame for this state of affairs. Obviously they are the productions of writers who know only too well what their public expects of them. The truth about us is far too uninteresting to the reader of tabloids and movie titles. Hence, away with the truth, when only the almighty dollar is to be weighed against the reputation of America's young intelligent aristocracy!

—The Reveille.

COLLEGE COMMENT

The Sewanee Purple at the University of the South has instigated a program of propaganda with the purpose of changing the name of their college.

Purdue University: The annual egg show at Purdue University promises a variety of exhibits. The eggs will arrive on the first day of the show, and be dropped on the athletic field by means of a parachute, another novel way of making whoopee.

Women at the University of Washington are proving to be almost perfect marksmen. A four-year course of this kind, and a little home practice is the recipe for the perfect scorer. But the men will marry the clinging vine.

A prominent senior in the College of Science, Literature and Arts at the University of Minnesota, is being held on charges of grand larceny, following his arrest after he had been seen rifling students' clothes left in gymnasium lockers.

LITERARY SECTION

[MARGARET CUNDIFF, Editor]

TO A DESERTED GARDEN

I exist, forlorn, forgotten.
My patterned paths no longer trodden;
My flanks are flayed with foreign weeds,
My velvet grasses have gone to seeds;
My blood red roses have lost their blush;
The fountain of frail harmony hushed.
Voices that were and are no more.
Like russet leaves scattered on my floor.
My stealthy shadows reach in loneliness,
In search of former happiness.
Lovely lavender lilacs shed
Their perfumed tears upon my head.
My threshold silent—no longer trodden,
I exist, forlorn, forgotten.

—KATHERINE DAVIS.

LETHE-CUP

Thou deep web of eternal death,
So closely wrap me in thine arms
That sleep, death's brother in one breath,
Will shield me from these poisonous charms.

And star, low slung in the western deep,
Bend thy chilling influence;
And toll me through hypnotic sleep
With the haze of thy affluence.

And Morphean door of polished horn,
Swiftly send a messenger of peace,
In samite clad, with amulets that worn
Will bring an ease that will not cease.

—K. P.

The Lexington rialto will be well stocked in all-talking, singing and dancing productions next week for three motion pictures of that nature will be presented Sunday. One depends of music for its quality; one on the stage play from which it was adapted, and the other from the excellence of the picture itself.

Frank C. Fowler, director of the Guilford theater, gave a very interesting review of "Street Scene," present Broadway success, over the radio Tuesday. His review was especially attractive in the line interpretation that was inserted by the speaker. Next Tuesday at 12:45 he will review "Kibitzer," and I recommend your attention.

Robert E. Sherwood, a critic of the cinema to whom I have referred on numerous occasions, said that two very important all-talking pictures have recently been given the public. They were "Alibi" and "Bull Dog Drummond." "Alibi," a United Artists picture, will open at the Ben All theater Sunday for a week's run and will probably be the outstanding production of the week here.

"Alibi" was produced and directed by Roland West, who made "The Bat" and several other successes, and, according to Mr. Sherwood, he has made a splendid job of it. The picture is characterized by a type of dialogue hitherto unknown to the talking screen in that it has the terseness of lines spoken directly from the stage. "Alibi" is a crook melodrama and is undoubtedly a triumph for the talking picture.

I would like to remind the person responsible for the very attractive theater program issued at the Kentucky and State theaters that Jean Hersholt is a member of the male species of humanity. In an advertisement of a picture starring Mr. Hersholt a picture of Lina Basquette was printed with the line "Jean Hersholt" below it. The ad played up the delightful feminine qualities of the star. I wonder who will feel the slight—Miss Basquette of Mr. Hersholt?

"The Squall," a First National Vitaphone picture, will open at the Kentucky theater Sunday and is an all-talking picture. The play from which it was adapted was what is called a "flop" on Broadway where it opened about two years ago. However, the picture has been given a good cast in Loretta Young, Richard Tucker, Myrna Loy, Carol Nye and several others and is said to have some very good comedy. Perhaps you saw the trailer on "The Squall" so you know the locale of the story. It is in the Cape Cod region of Massachusetts and the play has a very intricate plot with some clever characterizations. "The Squall" should prove to be fair entertainment.

Since the advent of talking pictures the familiar cry of "Lights, action, camera," is now almost obsolete in the Hollywood film factories. The director now has to signal his cast and technicians by a series of lights which are controlled from a tiny switchboard on the arm of his chair.

The Noise Era in motion pictures has given vent to music in all forms on the screen and "Syncopation," a Radio picture, which opens at the Strand Sunday for a four-day run, is the first production to feature an orchestra. The famous Waring's Pennsylvanians with Fred Waring waving the baton, form almost the whole show of the attraction. Of course there is a story woven around the orchestra but that is rather silly and quite subordinated to the music. The orchestra renders their concert arrangement of "Ah, Sweet Mystery of Life," from the operetta "Naughty Marietta" by Victor Herbert, which was made on a Victor record and released last summer. This happens to be one of my favorite selections.

8395 Decisions Favoring This Smoke

Isawich, S. D., Sept. 4, 1928
Larus & Brother Co.,
Richmond, Va.
Gentlemen:

In answer to the challenge of J. J. Roberts of Columbia, S. D., as printed in the Minneapolis Journal dated Sunday, September 2nd, I have smoked Edgeworth for twenty-three (23) years and for two years previous to that time I smoked Qboid, which, I believe, is manufactured by your firm.

During this time I have smoked at least one can each day, and to verify this statement you may address the C & C Cafe of this city, where I make my tobacco purchases.

It may be interesting to know that my purchases of Edgeworth during this period have totaled more than 8395 (eight thousand three hundred ninety-five) cans, representing a total expenditure of more than \$1259 (twelve hundred fifty-nine dollars).

I have never smoked any other brand of tobacco but Edgeworth during the twenty-three years.

Yours very truly,
(Signed) Chas. Bostock

Preparatory Subjects of Chemistry, Physics, Advanced Algebra and Solid Geometry offered for students deficient in entrance requirements.

July 8 to August 31, 1929

This Summer Session is given especially for students who wish to make up work or to secure additional credits. All work is conducted by the regular Faculty of the School of Mines. For catalog of the Summer Session, write to the Registrar, Box Z-16.

Colorado School of Mines Golden, Colorado

Many kinds are needed

One man supervises the construction of a new telephone line, a second is responsible for efficient service on that line, a third conceives an idea for its greater scope and shows the public how to use the service.

Each is furthering an important side of the many-sided business of rendering reliable, uniform and economical tele-

phone service to every corner of the nation. Bell invented the telephone; Vail made it a servant of every-day life. Today, the widely different types of ability represented by those two men are still essential.

What is more, as the Bell System develops in complexity, opportunities for interesting life-work become constantly more varied.

McVEY HALL

M'BRAYER AND RHOADS TO PITCH

The "Stormy Petrels" of Oglethorpe will invade the University Wildcat den on Stoll field Tuesday afternoon at 2:30 o'clock to open a two-day storm session in baseball.

The Petrels thus far have lived up to their name, clouding the bright skies of all the big teams of the south, including Georgia, Georgia Tech, Mercer and the Atlanta "Crackers," one of the best semi-pro teams in Georgia. They have won twelve out of thirteen games to date, losing to Mercer last Saturday, 13 to 8, after having trounced them the day before.

Petrels Have Stars
Last year the Petrels had a team of six-footers, nearly all of whom were sophomores or juniors. This outfit was defeated only three times last year and boasts of several players who, scouts say, will go to the big leagues.

Kentucky's record also speaks for itself. The Wildcats have been defeated only once in eight games, the lone defeat being at the hands of Vanderbilt, 8 to 7. These two contests will probably be the best games played on Stoll field this season and customers are sure to get their money's worth.

Rhoads to Pitch
Coach Pat Devereaux will probably start the undefeated demon, Raymond Rhoads, in the box, with Barnes on the receiving end for the first game. Paul McBrayer will be held as an ace-in-the-hole in case Rhoads is off form. He will get the call for the game Wednesday.

The probable line-ups will be:
Oglethorpe—Herrin, 3b; Thompson, c; Martin, ss; Anderson, 2b; Wall, lf; Holcomb, 1b; Reynolds, lf; Riddle, cf; McLaughlin, cf, 1b; Lawson, p.
Kentucky—Kellogg, lf; Mauser, 3b; Glib, ss; Cole, 1b; Layman, cf; Covington, 2b; Trott, rf; Barnes, c; Rhoads, p.

The game will be called by Coach John Heber of the Henry Clay High school.

Wildcat Thinlies Lose to Tennessee

For the first time this year the Orange and White of Tennessee were flying above the Blue and White of Kentucky at the end of an athletic contest between the two universities when Bernie Shively's thinlies dropped a dual meet to the Vols last Saturday by the score of 74 1-3 to 45 2-3. The Tennessee squad, conquerors of the previously undefeated Vanderbilt team, presented a well-balanced group which clearly outclassed Kentucky. Individual Wildcats, however, showed their heels to many of the Tennessee stars to turn in some brilliant exhibitions.

McLane, one of the most consistent performers of the season, was high-point man of the meet, scoring a first in the broad jump and seconds in the javelin and high jump. Hayes Owens and Wayman Thomasson, in the middle distances, showed the way to the Volunteer entries. Hayes taking the half-mile event in the fast time of 2:02 3-5, with Thomasson a short stride behind him. Thomasson lost the place position, however, to Dysart, of Tennessee, because of a foul in the early part of the race. Thomasson also ran a beautiful quarter-mile to win in the excellent time of :51 4-5.

PICTURES WANTED

Anyone having snapshots or action pictures of intra-mural sports is asked to get in touch with Virgil Couch, editor of the 1930 Kentucky Kernel, at his office in the basement of the Men's gym, or at the Alpha Tau Omega house.

HANOVER TENNIS MEN PLAY 'CATS

**Coach Downing and His Stars
Add to List of Victories;
Kentucky Meets St. Xavier
on Monday.**

Hanover College, of Indiana, will bring its squad of tennis players to Lexington today for a match with Kentucky's team, play to start at 2 o'clock. This match will be the next to the last for the local aggregation. The final match is with St. Xavier, to be played on the Hyde Park courts at Cincinnati Monday.

Coach Downing's racqueteers continued in their winning ways last week with victories over Georgetown, 6 to 1, and Centre, 5 to 2. On Monday Berea was taken into camp by a score of 6 to 1. The results of this match follows:

Singles—Ragland defeated Harlow, 6-1, 6-2; Kee defeated Evans, 6-3, 8-6; Hammersley defeated Allen, 4-6, 6-2, 6-2; Brook lost to Owens, 3-6, 3-6; Senff defeated Bowman, 6-4, 6-3.
Doubles—Ragland and Hammersley defeated Harlow and Allen, 6-2, 6-4; Kee and Spicer defeated Evans and Owens, 6-3, 11-9.

Kentuckians Lose In Golf Tourney

**Larmee Goes to Consolation
Finals After Failing
to Qualify**

Kenneth Larmee, captain of the Kentucky golf team, went to the finals of the consolation tournament at Asheville, N. C., last week after the Kentucky team had failed to qualify in the low 16 among 50 entries. Larmee lost to the intercollegiate champion of North Carolina.

The Wildcat team, composed of Captain Larmee, William Lusk, Dudley England and Henry Lewis, the first such team in the history of the University, was playing in its inaugural tournament. Only Cap-

TRACK MEN GO TO CONFERENCE

**Coach Shively Takes Owens,
Thomasson and Urevig to
Birmingham for Southern
Conference Meet.**

Coach Bernie Shively and three of his outstanding performers, left last night for Birmingham, Ala., where they will compete in the Southern Conference track meet. Owens, Urevig and Thomasson, who have been Kentucky's most consistent tracksters, are making the trip and Shively is expecting each man to score in at least one event.

Owens and Thomasson will participate in the track events and if their performance last week against Tennessee is any indication, they should finish well among the leaders. Owens won the half-mile against the Volunteers in the fast time of 2:02 3-5, with Thomasson pushing him hard. He will also compete in the mile run.

Thomasson's time of :51 4-5 in the quarter-mile is evidence that Wayman is rounding into good shape after early season handicaps, and if he is right should run under that time at the conference meet.

Under the careful coaching of Coach Shively, "Tiny" Urevig has developed into a shot-putter of no mean ability, and judging from his workouts during the past week has an excellent chance to better his mark of 41 feet, 1 1/4 inches, a new state record.

Larmee has had previous experience in tournament play. The Biltmore Forest country club course, where the championship matches were played, is one of the oldest and hardest courses in the South and all scores were high.

Kentucky will probably meet three other college teams before closing the season. The team of Georgia State won the Southern Collegiate championship at Asheville.

CAMEL
CIGARETTES

WHY CAMELS ARE THE BETTER CIGARETTE

The world's largest group of tobacco experts...
one brand... one quality... one size package
... everything concentrated on Camel goodness.

The smoothness and mildness of Camels are possible only through the use of choicest tobaccos.

The most skilful blending gives Camels an individuality of taste that is beyond imitation.

They have a mellowness that you have never known in any other cigarette, regardless of price.

Camels never tire your taste or leave an unpleasant after-taste.

ENGINEERS TAKE TRIP

Freshmen in the College of Engineering will make an excursion to Natural Bridge State Park Sunday, May 19. A special train will leave the Union Central depot at 6:50 o'clock Sunday morning and will arrive back in Lexington at 7 o'clock Sunday night. Approximately 150 engineers will make the trip.

EDUCATORS SPEAK

Dr. Jesse E. Adams and Dr. C. C. Ross, of the University, spoke at the final session for the present school year of the Blue Grass School executives club held at 6 o'clock Tuesday night in the palm room of the Phoenix hotel. School executives of nineteen Blue Grass counties are members of the club.

LIEUTENANT LESTURGEON
WILL COME TO UNIVERSITY

First Lieut. Percy E. LeSturgeon, of the Infantry School, Ft. Benning, Ga., has been ordered to report to the University as a professor in the department of military science immediately upon completion of his duties in Georgia. It was announced Saturday. Lieut. LeSturgeon was a former student of the University and is a graduate of the Signal School, Ft. Monmouth, N. J. Lieut. LeSturgeon is a brother of Prof. Flora E. LeSturgeon of the department of mathematics.

SPANISH CLUB MEETS

Ateneo Castellano, Spanish club of the University, will hold its final meeting of the year at Maxwell Place this afternoon, with Mrs. McVey as hostess. Miss Eleanor Smith is in charge of the program which will include a number of Spanish songs and several talks on the life and manners of Spain. At the close of the meeting refreshments will be served. All members are urged to attend.

Non-Fraternity Men
Lead in Scholarship

(Continued From Page One)

held by Alpha Xi Delta with 1.74, while Zeta Tau Alpha came third with 1.63.

Winning the cup this semester marks the fourth time the Alpha Gamma Epsilon fraternity has been successful. The rule stipulates that the fraternity winning the trophy for three consecutive times, or five non-consecutive times shall receive it as a permanent possession.

The Alpha Gamma Rho fraternity now owns a cup by virtue of having previously made the highest standing for three consecutive semesters.

Standings of all the fraternity groups follow:

Alpha Gamma Epsilon	1.615
Delta Tau Delta	1.525
Alpha Gamma Rho	1.505
Delta Chi	1.436
Kappa Sigma	1.410
Sigma Beta Xi	1.375
Phi Kappa Tau	1.350
Alpha Tau Omega	1.248
Phi Sigma Kappa	1.238
Triangle	1.194
Sigma Nu	1.187
Kappa Alpha	1.177
Sigma Chi	1.077
Alpha Sigma Phi	1.049
Sigma Alpha Epsilon	1.040
Phi Delta Theta	1.038
Phi Kappa Alpha	1.032
Standings of all the sorority groups follow:	
Alpha Delta Theta	1.77
Alpha Xi Delta	1.74
Zeta Tau Alpha	1.63
Delta Delta Delta	1.53
Kappa Kappa Gamma	1.52
Beta Sigma Omicron	1.51
Delta Zeta	1.498
Chi Omega	1.492
Kappa Delta	1.34
Alpha Gamma Delta	1.27

JAMES PAXTON DIES

James Paxton, a student at the University in 1926, having transferred here from Washington and Lee, died Wednesday of last week and was taken to his home in Stanford, Ky., last Saturday to await burial. Mr. Paxton, who was a member of Kappa Alpha fraternity, was located in Morgantown, S. C., after he left the University. He is survived by his father and mother, Mr. and Mrs. J. P. Paxton, and one sister, Jean Paxton.

LAW JOURNAL NOMINATIONS

A number of students in the College of Law have been nominated to try for places on the staff of the Kentucky Law Journal. This Journal is a quarterly publication by the College of Law for the benefit of students of the University and jurists of the Kentucky bar. The men who have been nominated are R. R. Dalton, E. R. Denny, King Pike, Wilbur G. Frye, R. Lisle, Edward DuVal and Julian Elliott.

DEAN BOYD ATTENDS MEET

Dean Boyd attended a meeting Monday at Frankfort of the state committee for Accrediting Schools, of which he is chairman. Representatives were present from all the colleges of the state and three high schools. Besides accrediting several high schools, the committee revised the standards for accredited high schools and decided to start a tabulation of grades made by freshmen in college.

Y. M. C. A. BOARD MEETS

A new advisory board for the Y. M. C. A. met Tuesday to organize the meeting for the coming year. At this meeting, Dr. C. C. Ross, of the College of Education, was chosen chairman; Prof. Ray Moreland, of the College of Law, vice chairman; Prof. P. E. Cochran, of the College of Agriculture, was chosen secretary. The next meeting of the advisory board will be held on May 28.

GIRL IS HURT

Mary Elizabeth McFarlan, the 4-year-old daughter of Prof. A. C. McFarlan, was injured in an automobile accident which occurred at 2:30 o'clock Wednesday afternoon on the corner of Woodland and Euclid avenues. The child received a deep cut on the forehead in addition to several minor bruises and scratches, but she was taken immediately to her home for treatment, and is reported to be doing very nicely.

PLAQUE IS ERECTED

A plaque to the memory of Hunter Cortland Moody, class of '28, who died June 30, 1928, a few weeks after graduation from the University, is to be placed in the hall of the armory. The R. O. T. C. advanced course is presenting the plaque, which is similar to one to the memory of Edwin C. Knader, who died November 29, 1927.

Intramural Sports

SKATING DERBY

The annual roller skating derby, sponsored for the last two years by the department of intra-mural athletics, will not be held this year due to the lack of proper facilities and a place to hold the derby, according to announcement by Coach M. E. Potter.

DIAMOND BALL

The brothers of Alpha Sigma Phi and Phi Sigma Kappa are holding their positions as the outstanding contenders for the diamond ball crown with three victories and no losses each. The rain for the last two weeks has caused a delay in the schedules and only a few games have been played. All contests must be played next week. Fifteen games remain to be played. The Alpha Sigma team holds the lead in the first division with the A. T. O.'s second with

one game won, and the S. A. E. team third with three victories and one defeat. The Phi Sigs lead the second division with the Kappa Sigs trailing with one victory, and the Kappa Alphas third with one victory and one defeat.

LANCES INITIATES

Lances, new honorary junior fraternity on the campus, held its initiation at the Sigma Nu house on Wednesday night at 8:30 o'clock. Ten men from the sophomore class, chosen as being outstanding, were initiated. The new initiates are E. T. Riley, Stuart Augustus, John Prewitt, William Trott, Ralph Woodall, Harry Day, Ben Harris, Earl King Senff, and Jake Bronston.

LOST—Tortoise shell rimmed spectacles in a room of McVey hall. If found, please return to 218 East Maxwell, or telephone Marie Taylor at 4955.
